CAREER SUMMARY

I'm a web developer ready to enter big leagues and put my talents to use.
My professional ambition is to stay versatile and be able to fill different roles within a product group. As such I've been learning technologies across the entire stack front to the back-end.
I Developed several web apps to showcase my abilities; 3 of them are linked to the right.
I am an active member of FreeCodeCamp and Chingu, global coding collaboration platforms. Though I might look like I don't know what I'm doing in IT because I did not follow my passion for software earlier in my career. I have completely retrained and am eager to hit the ground running in an established team of passionate developers. Thank you.

SAMPLE WORK

/Multi-page Design

/Admin UI

/Landing Page

PROJECTS

CHINGU CODING VOYAGES

• Participating in remote development coding cohorts that result in working with a team of like-minded WebDevs on interesting and challenging projects while learning new technologies
• Improving soft skills including communication, collaboration, and Agile project management, creating impact while leveling-up development skills

VIDEO PRODUCTION PROJECT (COUNTDOWN)

• Contributed in a complete, from ground up making of a 8-minute storytelling video project that included all that envelops required planning aspects, filming and editing into a finished product (Odstevanje / Countdown)
• Designed as a project for a Faculty of Electrical Engineering and Computer Science in Slovenia

ANIMATION WORKSHOP (VANIMA)

• Co-guided an international animation workshop in Varazdin for a week, organizing post workshop events and experiences for all 25+ participants
• Crafted in a final outcome was a compilation that showcased work that joined abilities and talents of a large multilingual, artistic team

EDUCATION

FREECODECAMP BOOTCAMP 2017-ONGOING

• FCC's Front-End & Back-End Development programs cover an estimated 1200 hours of coursework that includes HTML5, CSS, JavaScript and jQuery, Node.js, Express.js, Git, MongoDB and working with APIs

UNIVERSITY NORTH, CROATIA 2009-2011

• Studied about IT and applications, databases & SQL, graphical communication, programming tools, psychology of colors and presentation of information
• Excelled in video editing and illustrating for different media
• Translated highly technical documentation from English to Croatian

SCHOOL OF ELECTRICAL ENGINEERING 2005-2009

• Studied about microprocessors, digital electronics, system software support, diagnostic and maintenance of technical systems, computer service and repair, technical drawing and documenting, precision mechanics and electrical engineering, materials and components
• For my final work, I submitted a 3d model of a female centaur created in 3dsmax
